

Welcome to Today's Class!

Today's Topic: AI Digital Humans

What is the future of AI Digital Humans? Are these advancements a good thing- simply fun and harmless, or are they hurting us in the long run and taking away jobs from real life humans?

Agenda:

1. Review the video and vocabulary: "Are digital humans the way of the future?"
2. Small group: Breakout room discussions
3. Large group: Wrap-up

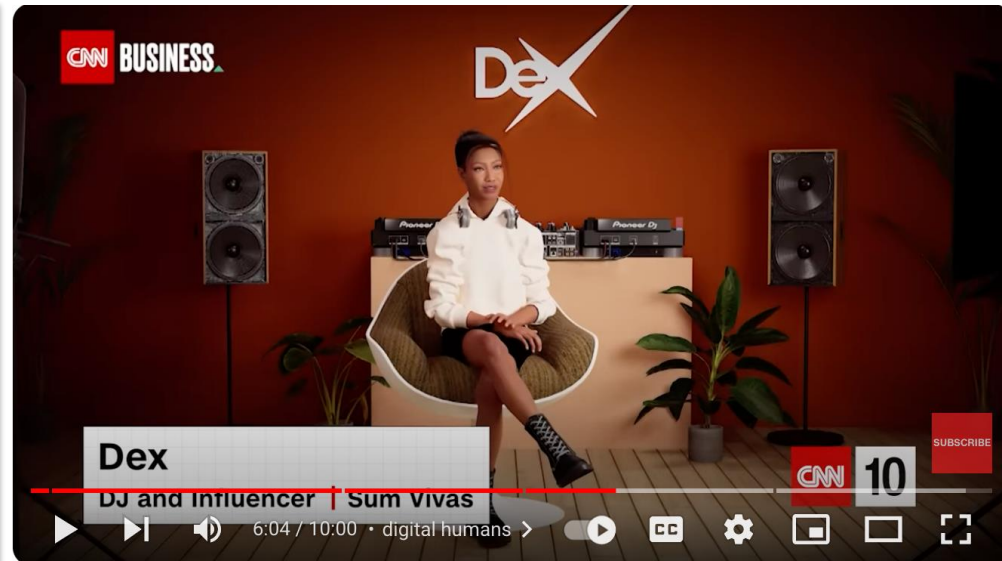

Watch & Learn

Are 'digital humans' the wave of the future with AI?

Key vocabulary:

1. vague concept
2. avatars
3. performance space
4. game-changing
5. influencer
6. collaborations

Let's Talk: Discussion Questions

Questions for discussion: AI Digital Humans

1. Do you agree that AI humans will become just another member of the team with added benefits for that team, and the customers they serve? Or will they cause a rapid reduction in human labor?
2. Can you name some skills that humans have lost and that have been replaced by technology over the past 25 years?
3. With AI's integration into the world of work, what skills will be lost in the future?
4. What specific industries were impacted by the digital humans and AI technology in this video? What other jobs will be replaced in the future?
