

# Welcome to Today's Class!

## Today's Topic: Medical Tourism

While medical tourism can save money and offer high-quality care, it also comes with risks, such as differences in medical standards, communication challenges, and limited follow-up care. Would you chose this option?

### Agenda:

1. Review the video and vocabulary
2. Breakout room discussions
3. Large group wrap-up

# Let's Talk: Discussion Questions

1. Have you or anyone you know ever considered medical treatment in another country?
2. What risks are involved in traveling abroad for surgery or treatment?
3. Would you undergo a procedure abroad to reduce costs?
4. Healthcare should be a human right, not a business, do you agree or disagree?
5. What factors would you need to feel safe to chose medical tourism (certifications, word-of-mouth recommendations, online reviews etc.)?
